

# POLYNOMIAL TOOLBOX — STUDENT VERSION

## STUDENT VERSION — DESCRIPTION

The Student Version is a complete Polynomial Toolbox to be used on a single PC under Windows. It includes all documentation in electronic form. The Student Version complements educational installations of the professional version of the Polynomial Toolbox, which may be found in many campus computer labs. Student licenses are restricted for use by students enrolled in a course offered by a degree granting institution or in a continuing education course. They are not for personal, professional, or commercial use.

## PRICE LIST (December 2013)

Polynomial Toolbox 2.5 — Student License	EUR 109.00
--	------------

Valid until further notice. Prices are for single unit purchases in Euro (EUR). Students from European Union please add EUR 23.00 for VAT (21%).

## PRODUCT LICENSING OPTIONS

Student Licenses are restricted to use on a student's own computer. Student Licenses are further restricted to use in connection with courses offered at degree-granting institutions, either by students working towards a degree, or by continuing education students. The right to use the programs for any other purposes, including commercial purposes, is expressly prohibited. Notwithstanding anything to the contrary contained in this agreement, Student Licenses are nontransferable. Maintenance and support are not provided with the Student License.

## DISTRIBUTION MEDIA AND DOCUMENTATION

The student version of the Polynomial Toolbox includes the complete Polynomial Toolbox software and all documentation in electronic form. The software is delivered by e-mail and the electronic documentation may be downloaded.

## SHIPPING AND HANDLING FEES FOR THE PRINTED MANUAL

There is no shipping and handling fee for electronic delivery of the software.

## ORDERING INFORMATION

To order the Student Version of the Polynomial Toolbox, print and complete this order form. In particular, confirm your enrollment in a degree-granting institution, supply your name, address, phone number and e-mail address, and provide your credit card data. Then fax or mail the form to PolyX, Ltd.

## STUDENT ORDER FORM

To order a standard educational or commercial license, use a (different) standard order form

## ***Additional requirement to improve the security of transaction of credit card payments***

Applies to Mail orders (when the seller does not have the buyer's credit card physically at hand)

Starting April 1, 2001, any mail order payment can be authorized by the bank only if an additional validation code is provided (in addition to the name, credit card number and expiration date currently required). Depending on the credit card company, the additional code is:

### **Eurocard/MasterCard**

A three-digit Card Validation Code (CVC) = the last three digits of the number that is printed on the Signature Panel (the stripe with the holder's signature) on the **back** side of the card.

### **Visa**

A three-digit Card Validation Value (CVV) = the last three digits of the number that is printed on the Signature Panel (the stripe with the holder's signature) on the **back** side of the card.

### **American Express**

A four-digit Batch Code that is printed on the **front** side of the card just above the card number (on the right or on the left).

### **JCB**

No additional code required.
